

Debunker

Never Get Fooled Again

The Market

- 69% of adults use at least one social network
- 62% of adults get news from social media
- Upto 30% of news is false

The Problem

- Violent extremism in social media spread through fake messages (news/links)
- Clickbait, spam websites and malicious content through messengers

Solution

- An intuitive Android app that
 - Warns users against spam links
 - Reports fake news
 - Notifies users against scams

Debunker

Demo

The Competition

scamadviser.com

- no API
- not for fake news reporting

snopes.com

- notifications not available
- doesn't work with links

Business Model

- APIs
- Advertisements
- Notifying victims
